WORK EXPERIENCE

October 2023 - February 2024

Junior FrontEnd Developer

[Trainee]

Ananta Technolab · Full-time

- Currently I am practising on creative responsive layouts/web apps using HTML, CSS, Bootstrap, Flexbox and for making it dynamic and for applying functionality I am using JavaScript.

ACCOMPLISHMENT

- I completed a six-month internship in front-end development, where I actively contributed to the development of responsive web applications using HTML, CSS, Bootstrap, and JavaScript.
- I try to learn the latest React.js and Node.js development trends and technologies.
- I am investing personal time to level up my skill set and expand my expertise in modern web development technologies.
